*Cottage Park Breaks Ground*

Dana Point Development Corporation has begun construction on the Cottage Park community in the City of Aurora. Completion is estimated for Fall 2014. The development will consist of seven (7) rental duplexes (14 separate units). Each unit will be approximately 1350 sqft and have an open floor plan, with two-plus (2+) bedrooms, two (2) full baths and large garages.

The development will include extra amenities and upgrades such as vaulted ceilings, walk-in closets, spacious master baths with walk-in showers. With safety and efficiency in mind, exterior lights will be “photocell” controlled for automation with dark and light hours. Interiors include electronic security systems.

Future plans for Cottage Park include a community garden, walking trails, a clubhouse and much more. The second phase of the project will include single-family & townhomes with rental and ownership opportunities available.

“We are excited to be continuing our relationship with the City of Aurora. This will be a community the residents will be proud to be a part of,” commented Matt Thomas, President of Dana Point Development Corporation.
