*Three New Homes Under Construction in Parkland Estates*

Three (3) new homes have recently begun construction by Dana Point Development Corporation in Parkland Estates – a 74-lot subdivision which sits on the western edge of the City of North Platte.

These ranch style homes will have 3 bedrooms and two baths, ranging from 1300-1600 square feet. The neighborhood offers a landscaped entrance with an attractive brick and wrought iron fence. Parkland continues to have the sense of community with such amenities as porches and a location that is close to a future city park.

“We are very pleased to further develop our Parkland Estates neighborhood and the subdivision is filling up nicely. We are happy to continue providing high quality homes in North Platte,” commented Matt Thomas, President of Dana Point Development Corporation.
