Robin Estates is Complete and Nearly Full

The Robin Estates development, consisting of ten (10) single-family homes, completed construction at the end of September and all but two (2) homes are now occupied. The homes are located in the new Robin Estates subdivision on Robin Drive at the corner of 18th and A Streets in Aurora.

Robin Estates was developed by Dana Point Development Corporation and constructed by G.E. Peters, Inc., of Aurora, NE. The project is a bungalow/cottage style development with all homes having covered front porches and rear patios. Every home features a 14-foot high ceiling in the living room and dormer with windows making the units very light and cheery. Yards are fully landscaped with sod and various plants/shrubbery and automatic underground sprinklers. Multiple trees are planted throughout as well. Other amenities included are security systems, and Energy Star appliances: washer/dryer, refrigerator, microwave, range and dishwasher. The attached two-car garages are extremely spacious and contain an additional area for storage.

“We are very pleased with the final product and how well it has been received and supported in the community. The last two (2) homes should be leased and occupied within the next few weeks,” commented Matt Thomas, President of Dana Point Development Corporation.
